OVERALL RISK RATING

HIGH

Summary of findings

Based on our evaluation, VOLKSWAGEN AG demonstrates high risk, concerning media presence alongside noteworthy media criticism in media coverage. Additionally, there are concerns about significant corruption prevention mechanisms linked with prominent sovereign interest presence affecting operational independence. Our investigation also uncovered notable sanctions risk management and critical high-profile political relationships introducing governmental risk factors. The evaluation also highlights middle-range liquidity position challenging profitability expectations. Regarding other risk factors, notable observations were made regarding the company's sustainability standards and cyber defenses. These findings warrant in-depth investigation and structured risk management approaches.
